PORTUGAL

We are pleased to present you with a commercial proposal for your company's participation in the 9th Mining and Exploration Forum MINEX Europe 2025.

The Forum and Industry exhibition will take place on 21-22 October 2025, at the Lagoas Park Hotel, Rua Encosta das Lagoas, Lagoas Park, 2740-245, Porto Salvo, Oeiras, Portugal.

ABOUT THE FORUM

Established in 2015, MINEX Europe is an annual mining and exploration event that brings together industry professionals, companies, and stakeholders to discuss key issues and opportunities in the European upstream, midstream and downstream metals sectors.

MINEX Europe Forum focuses specifically on mining, exploration and processing opportunities in Europe, particularly in countries that are rich in mineral resources but may not always receive as much global attention as major mining hubs like Canada, Australia, or Latin America. It brings together stakeholders from governments, companies, and investors who are interested in the European mining landscape, offering insights into regional trends, policy developments, and investment opportunities.

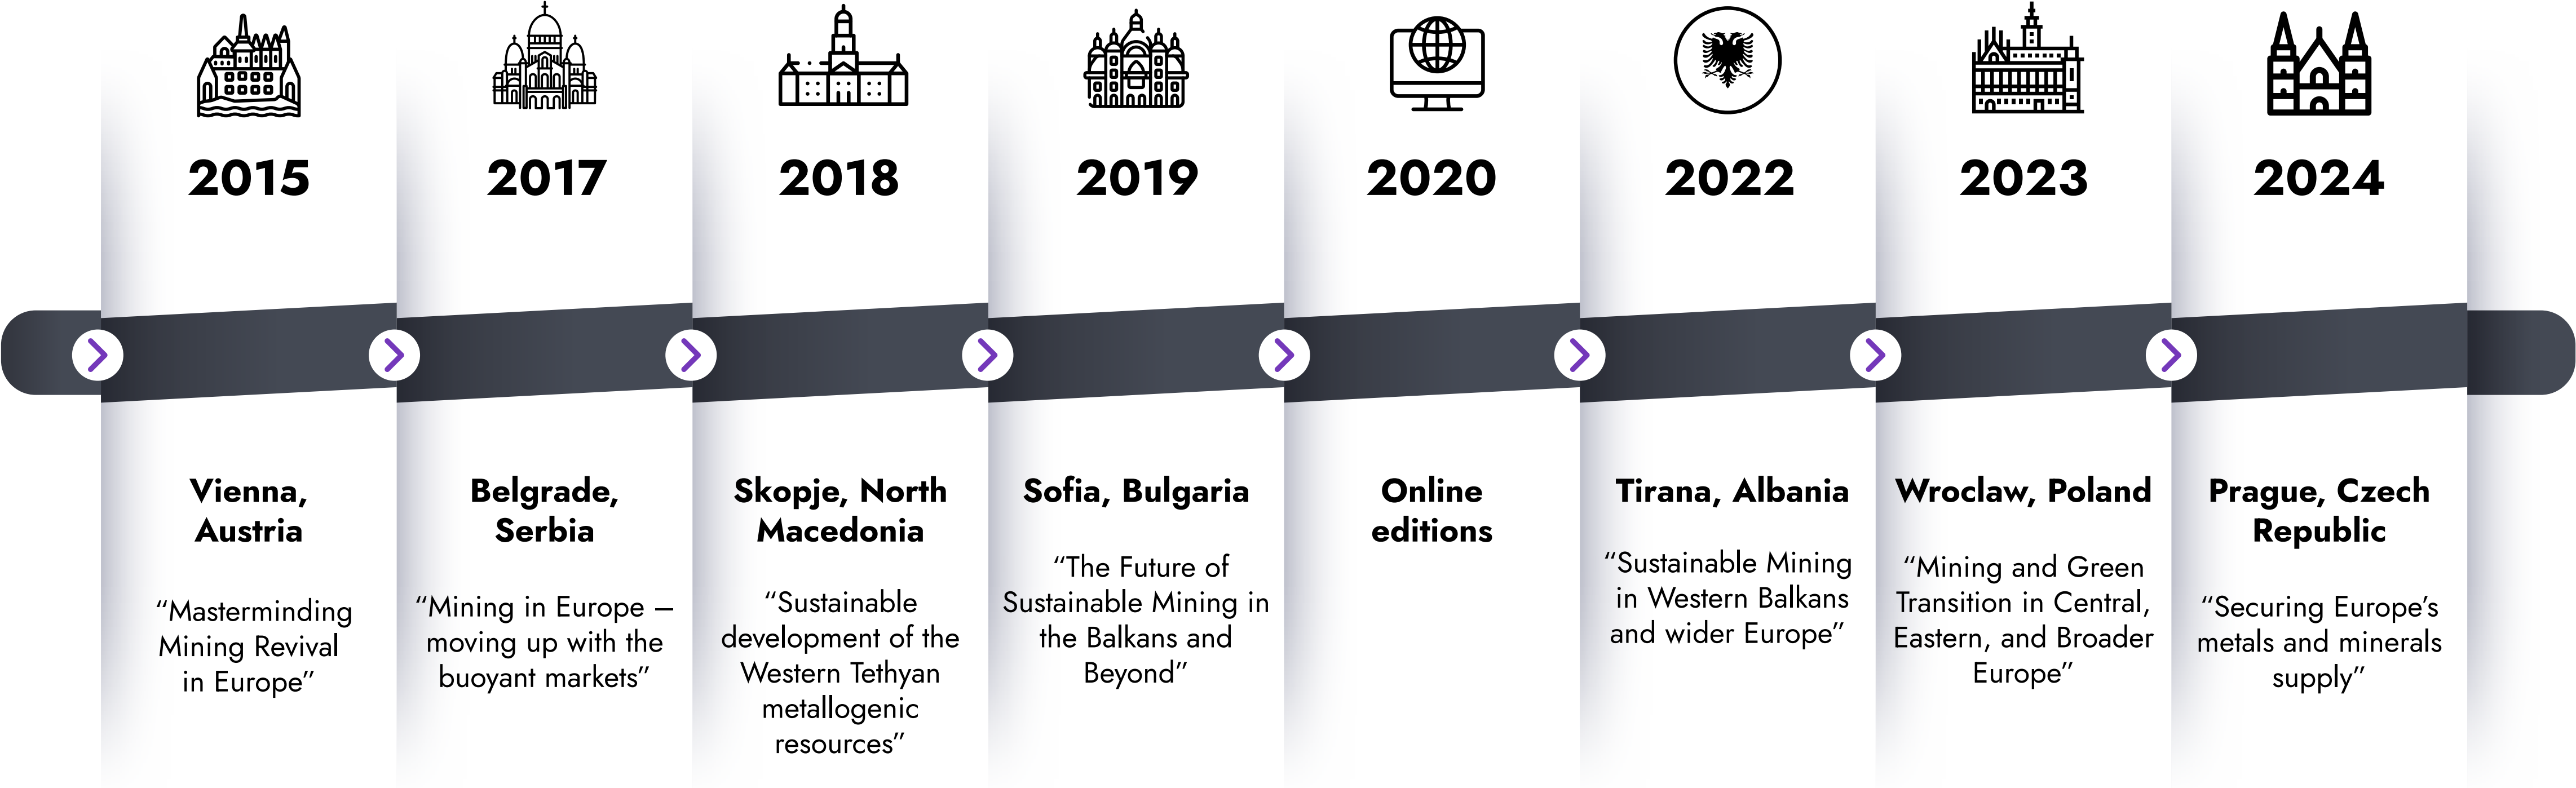

The Forum adopts a nomadic format, rotating between different host countries each year. This approach enables a deeper understanding of the complex role the mining industry plays in the economy and social fabric of each host country while empowering local participants with new connections, best practices, and knowledge from across Europe and overseas. By engaging with industry leaders and policymakers, attendees actively contribute to the future of sustainable mineral extraction across the continent.
